GRIEF TOO GREAT FOR SERMONS

Jailbreak Foiled, Deputy Is Injured

CARL METHLING
Jailer Assaulted

Prisoners Fake Fight, Lure Officer

Niles Convict
Had Previous
Escape Attempt

Two teenage prisoners who assaulted a Berrien county sheriff's jailer about 8:30 last night were foiled in an attempt to escape from the county jail in St. Joseph.

Frederick Roy Guthrie, 19, of 903 Sycamore street, and Robert Allen Nichols, 18, of 1235 Clybourn street, both of Niles, were to be charged today with attempting jailbreak and assaulting a police officer, jailer Carl Methling.

Deputies said the two faked a fight in their cell and jumped Methling when he attempted to stop it. Guthrie and Nichols got no farther than their own corridor, before they were returned to different cells according to Sheriff Henry Griese.

Methling suffered a cut under one eye, and bruises of the right eye and body. He was treated at Memorial hospital in St. Joseph and released. Griese said the two prisoners had no weapons.

PRISON TERM

Guthrie, sentenced to a three-to-five-year term in Southern Michigan prison after a Niles tavern break-in, attempted to escape during an earlier appearance in Berrien circuit court. Nichols was arrested last Monday and is awaiting arraignment on a breaking and entering charge.

Guthrie was described as leader of the plot. Officers said he had been planning to escape

FREDERICK GUTHRIE
Plot leader

ROBERT A. NICHOLS
Faked fight

from the time he was arrested. However, he was described as "quiet, polite and cooperative" when sentenced Oct. 14.

Sheriff Griese said the two prisoners seized Methling's keys

130 Bodies; 'We Can Only Pray'

Still Digging
Where Avalanche
Buried Youngsters

ABERFAN, Wales (AP) — Rescue workers today succeeded in halting a moving mountain of coal mine refuse which had engulfed a school and at least 14 homes in this tiny Welsh village, leaving 200 feared dead.

Engineers and miners worked nonstop through the night digging deep channels through the black sludge to divert water from building up inside the heap and causing possible further slides.

Half the 800-foot slag heap crashed down a green hillside Friday, crushing a junior school and a row of miners' cottages.

Rescue officials said that 130 bodies — nearly all children — have been dug out of the debris. Officials said that no survivors had been found since Friday.

One minister said no special services would be held in the village's churches Sunday. "Hearts are breaking," he said. "The sorrow is too great for the usual sermons. We can only pray."

The Rev. Kenneth Hayes, pastor of the English Baptist Chapel, which has the largest membership in Aberfan, said he plans to conduct services. His nine-year-old son is among the missing.

SOME ESCAPED

District education director John Beale said 36 children who were rescued had been hospitalized and another 88 escaped when the disaster struck.

The bodies of David Benton, deputy head teacher at the school, and five children were found late Friday night.

"David was clutching the five little children in his arms as if to protect them," said the miner who found them. "He and the five children died clutching each other." The miner then lapsed into shock.

Rescue workers, some up to their knees in sludge, carefully picked through the debris of the buried school rooms. The slag was emptied onto the streets where giant yellow earth-moving machines loaded it onto dump trucks.

Bodies of the children, covered by red blankets, were carried out on stretchers and laid out for identification in a nearby chapel. Police allowed parents through one or two at a time.

Prime minister Harold Wilson and Lord Snowdon, husband of Princess Margaret, were among the first officials to arrive.

'JUST ONE'

Wilson said after touring the disaster area: "I don't think any of us can find words to describe the tragedy. I am concerned to ensure that if steps can be taken even now to save just one life, that will be done."

Through the night giant arc lights lit up the scene of the disaster — one of the worst of its kind in Britain.

Rescue workers, most of them miners, were dragged from the

LBJ Gets Great Sydney Welcome

Few Throw Eggs, But Many More Use Confetti

BRISBANE, Australia (AP) — President Johnson rode past a million cheering Australians in Sydney today, donned cowboy togs for a Texas-style barbecue outside Canberra and came to Brisbane looking weary and strained tonight, the eve of his flight to the Manila summit conference.

The wild welcome in Sydney, the nation's largest city, was marred by the sharpest demonstration Australia has seen against the U.S. role in Viet Nam.

Nevertheless, the President told a crowd in Brisbane:

"This is the most wonderful visit that I have ever been on. It is a sentimental journey."

Brisbane is the last tour point in Australia for the President and his wife Lady Bird, except for a refueling stop at Townsville Sunday on his 3,700-mile flight to Manila.

In Brisbane some people had waited seven hours in frosty weather for Johnson to arrive from Canberra.

Speaking from a rostrum at the airport, Johnson apologized for his "tardiness." He put it down to the crowds he had met in Canberra and Sydney.

He paid tribute to the people of Brisbane, saying that a million American GIs had passed through the city in World War II.

LADY BIRD

Calling his wife to wave to the crowd, Johnson said: "She didn't get to come with me in '42 and we have been quarrelling about it ever since."

Johnson served in Australia and New Zealand as a navy lieutenant commander in the World War II.

BLOSSOM QUEEN

Sandy Doffs Crown To Be Soldier's Wife

Sandy McGowan is "just too much in love" to be a queen or a coed. She is abdicating as Miss Blossomtime to marry a U.S. Army private.

Miss McGowan of Lawrence and Pvt. Steve Hall of Paw Paw were to be married today

at 3 p.m. in the Paw Paw Methodist church. Steve, home on a weekend pass, is in basic training at Ft. Knox, Ky. He will be reassigned in about three weeks when Sandy will join him.

Southwestern Michigan's

Blossomtime will have an interim queen to rule until Miss Blossomtime of 1967 is crowned. George Mirabal, manager of Blossomtime, Inc., announced Martha Krause, Miss Berrien Springs, will officially assume the title and perform remaining duties. Miss Krause was first runnerup in the 1966 contest.

Miss McGowan started classes at Michigan State last month. "I am just too much in love to go to school for the next four years, and with Steve being transferred soon, we decided to stay together," she said.

"I have no idea at this time where we will be in May of 1967, therefore, we feel that it would be best to relinquish my crown at this time."

Sandy and Steve have been sweethearts about a year.

Miss McGowan received a \$500 scholarship from Blossomtime, Inc., Mirabal said the full amount will be refunded to Blossomtime by MSU. Decision to relinquish the crown was hers, he added.

Miss Krause's principal duty will be to crown Miss Blossomtime of 1967.

Diagnostic Computer

In this automated society, with personal services and individual attention constantly giving way to the less personal but more efficient mass dispensation of goods and services, some medical scientists have dreamed of a future path of health progress largely in the realm of computers and other electronic workhorses.

That dream may be close to reality. Computers are being used increasingly in medical research, in diagnostic techniques and as banks to store voluminous data. But the most ambitious program to date is now underway, sponsored by a leading computer manufacturer.

Under the auspices of the Mohansic Systems Laboratory of IBM's Advanced Systems Development Division, the medical computer bank will assimilate the wealth of medical data which goes into diagnosing and treating illnesses. Unlike the faulty memory and limited knowledge of man, the computer program will incorporate not only the wide range of information now available but new data constantly becoming available.

It will be a sort of instantaneous library which not only can recall full particulars about an ailment, but match a patient's physical condition with probably malfunctions. It will not replace physicians, but it should become one of the most valuable assistants available to doctors' offices, hospitals and medical schools.

The mechanics of using the equipment will be quite simple. The doctor will go to the computer keyboard and punch out information that describes his patient. Age, temperature, respiration, blood pressure, weight, sex, any symptoms of illness and past medical history will be instantaneously recorded and evaluated.

No one expects such large and costly equipment to be installed in every physician's office, but regional centers (perhaps located in large hospitals or medical schools) will be available to physicians in the area, possibly by telephone call.

When such a computer system is functioning nationwide, the quality of medical care which already ranks first in the world should show still further improvement, not only in the availability of a mass of data to aid the physician in his diagnostic efforts, but in freeing him from much of the routine medical record-keeping which has become a burdensome part of contemporary medicine.

Quacks Still Operate

There is a return of the old time medicine man and increasing evidence of quackery in his spels. Sales talks of door-to-door vitamin, mineral and other food supplement salesmen bear a remarkable likeness to the patent medicine hawkers of a century ago.

Thousands of salesmen now peddle medical wares to the households of the United States and a growing number are misrepresenting the powers of their goods. Self-styled "health and nutrition experts" are operating in many areas.

Basing his sales pitch on the fear of human illness, the modern medicine man has adopted the same technique which created quick profits for his equally unscrupulous predecessors. People with real or imagined ills it seems are easily sold on a cure-all remedy.

In spite of an increasing number of court-upheld convictions, the number of unscrupulous claims seems to be growing. "It's like trying to plug a breaking dam with your finger," was the exasperated comment of one investigator.

No doubt current dietary fads are responsible at least in part for the survival of the medicine man. The old time purchasers of patent medicines used to get more for their money. The quacks of yesterday provided entertainment with their pitches.

Culture on the Rise

It formerly was fashionable to refer to America as a non-musical nation. Lacking tradition, Americans didn't know music and couldn't appreciate it, was the contention.

But what has been happening in the last 25 years? According to a Concert Music USA survey:

The dollar volume of record sales, instruments and other aspects of music has risen 857 per cent since 1939.

Amateur musicians number 37 million. There are more than 22 million who play piano and more than seven million who play guitar.

The number of symphony orchestras has doubled to 1,401 since 1939. There are 63,000 school instrumental organizations.

Record sales have risen 1,344 per cent since 1940. More than 12 million Americans receive music instruction.

While the quality of some music might not meet with everyone's approval, nobody can accuse Americans of a lack of interest in music. This is Culture with a high C.

12-Mile Limit

Buried on the inside pages of the newspapers the other day was an item to the effect that the United States would extend its coastal waters from three to 12 miles. This extension would make the 12-mile limit standard in North America.

Canada extended its coastal waters to 12 miles in 1964. It was a unilateral claim to which the United States gave little heed. Neither did European fishermen operating off the Canadian coast.

This 1964 decision was made because a plea for its international recognition made to the United Nations in 1960 had failed. Canada didn't have the muscle to back up such a claim.

Now this country has found foreign fishermen (notably Russian, Portuguese and Japanese) are denuding the fishing grounds right to the edge of the three-mile limit.

If this 12-mile limit is established by Washington, and there is every reason why it should be, will U Thant attempt to oppose it in the United Nations.

The Human Thing

Justice may come at last to a group of people which has given up much for the advancement of culture. A member of the Italian parliament has demanded better pay, health insurance and pensions for nude models in Italian art schools.

The whole world should take up the cry. Art lovers, comfortably clothed, march through hundreds of art galleries, assessing thousands of paintings and statuary made possible because generations of selfless models had the courage and stamina to pose in the nude.

The viewer has pleasure, the artist earned fame. But what did the poor model get? Pneumonia, probably. With no health insurance to pay the hospital bill.

It is encouraging to see this effort to help the models, who have too long been stripped of their social benefits.

Cheaper This Way

Defense secrets accidentally dropped from a U.S. Navy plane approaching Friendship Airport near Washington last August have been found by a squirrel hunter.

An intensive search for the bright orange pod by helicopters, 100 Marines and 45 Navy men had ended in failure.

The Pentagon saved money by abandoning the quest, offering a \$100 reward, and waiting for the squirrel hunting season to open.

HEY, DON'T FORGET ME!

ST. JOE BUILDING TO BAPTISTS

—1 Year Ago—

The Michigan Baptist convention has accepted as a gift the former Baptist Children's home in St. Joseph. It was learned today. Long vacant, the 40-room building and five acres of land was donated by Mr. and Mrs. John S. Decker and their daughter, Joanne Decker Leko, formerly of Benton Harbor.

The Rev. Robert Behnken, recently elected president of the Michigan Baptist convention and pastor of the First Baptist church of Benton Harbor said the donation was accepted at the recent annual session of the convention in Grand Rapids. He said the long vacant former orphanage will be used as a ministerial retreat house and as a facility for emotionally disturbed and handicapped children.

ST. JOE APPROVES SCHOOL ANNEXATION

—10 Years Ago—

St. Joseph school district voters Saturday approved the annexation of the Stewart school district in a sweeping 7 to 1 majority. Despite the postponement of the election in Stewart, St. Joseph voters approved the proposition increasing the tax limitation in order to absorb the Stewart district bonded indebtedness by a vote of 257 to 42.

School officials indicated today that an election would probably be held in Stewart considerably before the Dec. 10 deadline. St. Joseph officials expressed an opinion that the merger would be approved by Stewart voters.

GUN MOUNT ORDER FOR WASHER PLANT

—25 Years Ago—

The Nineteen Hundred corporation here will share heavily in a \$12,000,000 defense contract that the War department has awarded to the household washing machine and ironer industry. The contract, announced in Washington today by the Office of Production Management, is for the manufacture of anti-aircraft gun mounts, a type of job for which washer and ironer

plants are suitably equipped.

The contract announced will be apportioned among 31 other firms in the washer and ironer field which have been crippled by priorities.

BIG HAUL

—35 Years Ago—

The biggest trout haul here this season by commercial fishermen was reported today. The B and J fish tug came into port yesterday afternoon with 1,000 pounds of No. 1 trout.

STORE OPENS

—15 Years Ago—

L.F. Jones of the 5 to 50 cents Metropolitan store is in Michigan City for the reopening of a store there. Mrs. Herman Radde Jr. is in charge of the local store.

POUND SHOWER

—55 Years Ago—

YWCA members gave a pound shower at the home of Miss Maude Wallace. Each woman attending brought a donation of a pound of food to be used in the cafeteria of the Y.

DELEGATES RETURN

—75 Years Ago—

All delegates to the ministerial conference have returned to their homes.

SCOTT'S SCRAP BOOK

By R. J. SCOTT

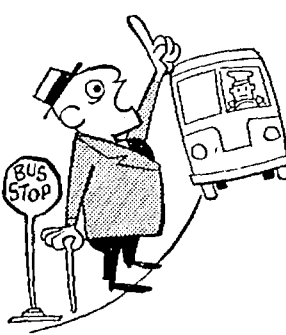

TRY AND STOP ME

By BENNETT CERF

When the late Gene Fowler graciously accepted an assignment in Hollywood at the modest stipend of \$1,000 a day, an impressed studio head sent a Rolls Royce, with liveried chauffeur and footman, to meet him at the Santa Fe terminal. Mr. Fowler, however, elected to go to his hotel by bus. "I expect to do a bit of gambling with Jack Barrymore and Charlie MacArthur," he explained, "and want to arrive at my lodgings in the same style in which I shall probably depart."

Two Southern belles had set their caps for the same man — and the girl who lost out never forgave her successful rival. At a bridge party a year after the wedding, the victor cooed, "You wouldn't recognize Joe since he married me, my dear. He's stopped drinking and carousing, and he's had three important promotions at the plant. It just goes to show what association with the right kind of woman can do for a man."

"I know," nodded the loser

thoughtfully. "And whom do you suspect?"

"I thought you were sick yesterday," an angry employer roared at his secretary. "You certainly didn't look very sick when I spotted you at the race track!" "I didn't," countered the unflustered secretary. "You should have caught me at the end of the fifth race!"

speaking of YOUR HEALTH

By Lester L. Coleman, M. D.

Childless marriages due to some kind of infertility of the husband was the major problem discussed at the World Congress of Fertility in Stockholm. New leads to the problem were shown by scientists from all over the world.

Of particular interest were the most encouraging results developed by Dr. Joji Ishigami at Kobe University in Japan. Using three complicated but inexpensive drugs, triiodothyronine, arginine and coenzyme Q7, the doctor reported a vast improvement in men with deficient or weak sperm that had interfered with conception.

The rate of pregnancy in previous childless marriages was sufficiently great to call forth enthusiasm by other researchers.

It was suggested that these drugs might be tried first before hormones were used on infertile males. It is not believed, however, that these drugs will replace hormones but may be combined with them to remedy one of the numerous reasons why women fail to conceive.

Patients with severe kidney disease and uremia have been kept alive by a process called dialysis. It is sad and almost unbelievable that the artificial kidney machines were only available to a selected few because of their cost. In fact, some hospitals and some physicians were placed in the painful position of having to decide who shall live and who shall die because these machines were not available.

Physicians and scientists have concentrated their energies on a

low cost machine that soon will be available to everyone everywhere.

The kidney machine cleanses the blood of all the waste products that a healthy kidney normally excretes in the urine. The process of dialysis can now be performed at home at regular intervals by relatively inexpensive machines.

Dr. Joseph W. Eschbach of the University of Washington School of Medicine in St. Louis says "that 85 per cent of these patients have gone back to productive lives as machinists, shoe salesman, engineers and housewives."

In a world filled with so much scientific progress and hope no one should be deprived of his right to live because of the cost of a machine.

A new test that can detect cystic fibrosis in ten minutes has been devised by Dr. Warren J. Warwick at the University of Minnesota Medical School. The rapidity with which the test can be performed will give an infant a greater chance to survive because treatment can be started.

One of the important diagnostic tests for this disease is to measure the amount of salt in the sweat. This Dr. Warwick was able to do in the newborn nursery without distressing the child and with great reliability.

SPEAKING OF YOUR HEALTH — Accidental falls from open windows are responsible for more than 500 deaths a year. What a waste when windows can be protected.

These columns are designed to relieve your fears about health through a better understanding of your mind and body. All the hopeful new advances in medicine reported here are known to doctors everywhere.

Your individual medical problems should be handled by your own doctor. He knows you best.

CONTRACT BRIDGE ...

The bidding:
South West North East
3 ♠ Pass Pass Dble
Pass Pass Pass

Opening lead—jack of hearts. It's hard to believe that anything like this could happen in first-class competition, but it did. The hand was played in the national masters team of four championship in 1956.

At the first table, South decided to open with a preemptive bid of three spades. West was of course sure that this contract could be beaten, but he was unable to double because he knew that this bid would be construed by East as a takeout double. Accordingly, he passed.

But when the three spade bid rolled around to East, he was not inclined to give up without a

fight. He therefore made a takeout double. This rather doubtful action with a relatively weak hand suited West to a T. West passed and led a heart, and the outcome was that South went down three, less 100 honors, for a loss of 400 points.

At the second table, South elected to forego the preemptive bid as dealer. He passed, whereupon West decided to open the bidding with two spades! He and his partner were playing weak two bids, and he thought that the hand was suitable for preemptive purposes.

North was somewhat short of high card values but did have good distribution, so he doubled for takeout. South found it difficult to imagine a more ideal contract than two spades doubled, so he passed.

This time West became dealer at spades. North led a heart and West succeeded in making six tricks for down two, 500 points. However, he also had to suffer the stigma of having 100 honors scored against him.

So the upshot was that the North-South pair at this table collected 400 points against a spade contract after their East-West teammates at the other table had also collected 400 points against a spade contract. The team gain was 800 points. Both preemptive bids boomeranged.

today's GRAB BAG ...

THE ANSWER, QUICK!

1. Name Paul Revere's cohorts.
2. What are asteroids?
3. Who was the Great Emancipator?
4. How often does the earth's sun make a full revolution?
5. What is an esteddfod?

YOUR FUTURE

Act with the greatest circumspection in a romantic attachment. Today's child will be alert, clever.

For Sunday, Oct. 23: Life proceeds happily along the even tenor of its way. Today's child will be active, inclined toward outdoor sports.

WATCH YOUR LANGUAGE BEWITCH — (be-WITCH) — verb; to affect by witchcraft or magic; throw a spell over; to enchant.

IT HAPPENED TODAY

On this day in 1962, President Kennedy announced an arms blockade of Cuba after Soviet missiles were discovered there. On Oct. 23, 1915, 25,000 women marched in New York City demanding the right to vote.

BORN TODAY

Pianist and composer Franz Liszt was born in 1811 at Raiding, near Oedenburg, in Hungary. He gave his first public concert at the age of nine; was sent to Vienna to study and, by the age of 12, had played in Vienna, Paris and London.

Settling in Paris in 1823, he was lionized as a virtuoso and became one of the most influential figures in mid-19th century musical world. He toured Vienna, Munich, Stuttgart and Strasbourg; visited England three times;

met Paganini and became fired with the resolve to become the Paganini of the piano. He made a fortune and used his position to encourage young composers, including Dvorak, Creig, McDowell, Brahms and Tschai-sowsky. He was the first to conduct Wagner's "Lohengrin," and Wagner later married his daughter.

At the height of his popularity, he retired to the Weimar court to direct the opera and concerts, to compose and teach. There he produced many of his major works, and Weimar became the musical center of Germany.

In 1865, Liszt took orders in the Roman Catholic Church and was known as Abbe. In 1886 he made another triumphal tour to London, returning to Bayreuth, where he died that summer.

Others born this day include journalist M. A. F. George, tenor Giovanni Martinielli, music patron Minnie Guggenheimer, actresses Sarah Bernhard, Constance Bennett and Joan Fontaine.

Those born Oct. 23 include writer George Saintsbury, jurist Tom Clark, TV personality Johnny Carson, baseball's Jim Dunning.

IT'S BEEN SAID

Lakeshore Chamber To Meet

Hope To Plan For Flood Control

Members of the Lakeshore Chamber of Commerce will meet at 8 p.m. Monday in the conference room of the Snow Flake motel to forge the first links of a food control chain.

President Donald J. McGrath said the Lakeshore Chamber planned to invite Fred Krause, chairman of the Waterways Development committee of the St. Joseph Improvement association, to the meeting to coordinate details of a campaign to halt erosion of the Lake Michigan bluff and save Lake Shore drive south of St. Joseph, from sliding into the lake.

The U.S. Army Corps of Engineers have outlined what steps must be taken. In order to obtain federal matching funds the area to be saved must be in public ownership. How to obtain these bluff lands will be one of the first topics of discussion, McGrath said.

All members of the Lakeshore Chamber are urged to attend, McGrath said.

Will Sell Candy For Charity

Moose Lodge Aids Kidney Foundation

"Trick or Treat" candies will be sold Monday by members of Moose lodge No. 1570 to raise funds for the Michigan Kidney foundation, T. L. Wisneski, chairman, said today.

All proceeds from the sale will support the Kidney Foundation's research and drug banks which provide lifesaving medication to child and adult victims of kidney disease.

Sale of the Halloween candies provides funds not now available through any other source to support the foundation's 14 drug banks throughout the state, Wisneski, of Route 1, St. Joseph, said.

The "Trick or Treat" candies come in plastic bags, designed to reuse as hand puppets. The candies are individually wrapped for distribution to little Halloween beggars.

Will Speak During S.J. College Night

Miss Lynn Andreen, Benton Harbor, kindergarten teacher at Jefferson school, St. Joseph, and an alumni admissions counselor for National College of Education, Evanston-Wilmette, Ill., will meet with students in the college night program at St. Joseph high school Nov. 2.

Miss Andreen will discuss the new National College liberal arts program with specialization in education for elementary school teachers. She will also describe the "new" National college campus with doubled building space.

GUSTAVE RADDE is out of uniform as a St. Joseph fire-fighter, but he remains in the ranks as a fighter against muscular dystrophy.

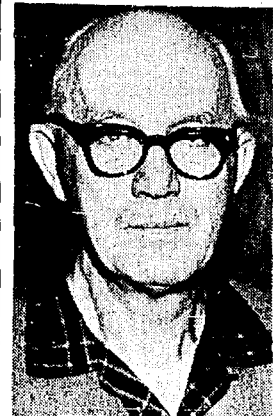

Radde has served as secretary of the Southwest Michigan Muscular Dystrophy campaign since its inception in 1954. Firemen in four counties have played leading roles in the drives that collected more than \$230,000, and none has done more than Capt. Gus.

He retired last May after 29 years with the St. Joseph fire department but announced he would continue working with in the muscular dystrophy campaign. The 1966 march will be held next month, by 70 fire departments and civic organizations.

Besides working as campaign secretary, Radde was chairman of the drive for two years. His enthusiasm had led the St. Joseph fire department to annually ring up the highest campaign total. The 1965 proceeds of \$4,720 for St. Joseph amounted to 40 cents per capita believed to be the highest for any community in the United States.

Funds raised for muscular dystrophy go to assist 47 patients in the four-county southwestern Michigan area and for research to find a cure for the dread disease.

Radde has received a National Muscular Dystrophy Service Award for his 12 years of service. "He has been a driving force and continuous inspiration to the entire chapter and its patients who have been helped by the captain and his fellow firefighters," said Robert Hickman, president of the Southwest Michigan Chapter of Muscular Dystrophy Association of America.

WILLIAM LUITJE

BENTON HARBOR coin dealer William Luitje went to an auction in Lansing this week expecting to spend several thousand dollars for coins and antiques. He returned home with about \$200 worth of goods.

The auction was arranged by the State Treasury Department to dispose of jewelry, coins, stamps and other items left in estates that had no apparent heirs.

The state made an estimated \$35,000 from the sale, but professional dealers like Luitje found they were almost shut out by high bidding from amateur collectors. Many of the dealers just quit bidding.

Luitje said he sells an uncirculated \$10 gold piece for \$35, but one well-circulated \$10 coin went for \$47.50 at the auction.

"The state did an excellent job of getting a lot of money," he said. "I saw \$20 gold pieces you can buy for \$48 each, uncirculated go for \$61 an \$73."

Luitje, who operates a coin and antique shop in the Fidelity building, explained that dealers have to leave room for a margin of profit when they bid on an object.

He said the high bids at the state auction resulted from competitive spirit and the atmosphere. The sale was held in the House of Representatives chamber, a setting conducive to big spending.

It was the first such sale thrown open to the public. The items formerly were sold by sealed bid to dealers. Response indicated the state will continue the open auction method.

Deputy State Treasurer Lloyd Anderson said the state retains such property for seven years. If it is not claimed within that time, it is sold and the money is returned to the general fund. An heir can always be reimbursed by the state if he can prove his claim.

Biggest purchase was by a Detroit man who bought a

stamp collection for \$1,000. Not all of the sales were big.

A man's watch band went for 50 cents.

THIRTEEN students from Berrien, Van Buren and Allegan counties have been named to the dean's list for academic achievement during the past quarter at Ferris State College.

From Berrien county the students, all of whom averaged "B" grades or better for the quarter are Robert P. Schmidt, son of Mr. and Mrs. M. Schmidt of Berrien Center; Dale C. Brewer, son of Mr. and Mrs. Victor Brewer, New Buffalo; Richard A. Cramer, son of Mr. and Mrs. Ed Cramer, Niles; Terry J. Hamrick, son of Mr. and Mrs. Keith Hamrick, Niles; Lynn M. Silkworth, son of Mr. and Mrs. William Silkworth, Niles.

Also Donald E. Lentz, son of Mrs. Della Lentz, St. Joseph; Jeanne E. Luther, daughter of Mr. and Mrs. Paul Luther, Three Oaks; and David A. Stover, son of Mrs. Catherine Stover, Stevensville. Van Buren county students

named to the honor roll are Cheryl Crow, daughter of Mr. and Mrs. George Crow, and Paul R. Retberg, son of Mr. and Mrs. Louis Retberg, both of South Haven.

From Allegan the honored students are Larry R. Button, son of Mr. and Mrs. Melbourne Button, and Danny L. McBride, son of Mr. and Mrs. Leland McBride, both of Allegan; and Paul J. Kaczanowski, son of Mr. and Mrs. S. Kaczanowski, of Dorr.

MARK EAST, III

A promising career in one of the most difficult businesses—"crack"—show business—is developing for Mark East, III, son of Mr. and Mrs. Mark East, Jr., 375 Montezuma road, Benton Harbor.

Young East is the lead tenor in the chorus and plays a bit part as a baker in the cast of "Hello Dolly," with Carol Channing's road company, now playing a two-week run in Milwaukee.

East played in the cast with Eve Arden as "Dolly" in Chicago from June to October.

"Hello Dolly" is a sell-out wherever it plays—at Houston, Texas, Milwaukee, and in Iowa City, where East will appear next with Carol Channing. The five-day run there is sold out and will net \$240,000 for its producers, according to East's father.

East, who starred in several Benton Harbor high school musical shows, and performed in area summer theaters, attended the American Conservatory of Music and Elmhurst college in Chicago, after his local graduation.

He moved to New York City in November, 1965, and has been booked steadily ever since. He was in the "Kismet" cast starring Marilyn Maxwell; in "Brigadoon," with Dean Jones, and in the Milwaukee revival of "The Student Prince." He also toured with the National company of "The Music Man" and performed last season at the Highland Park Tenthouse Theater.

Eighty male singers were auditioned in Chicago for the role East plays in "Dolly," and he was called from New York for a special audition.

He studied voice locally with Miss Virginia Archer.

Processors Told Fight Is Coming

State Association Meets In St. Joe; Hears Warnings

By JERRY KRIEGER
County-Farm Editor

A big battle by politicians in the federal government to attempt to "structure" the food industry to their dictates in the name of consumerism, was predicted before Michigan food processors Friday by a top leader in the American food industry.

George W. Koch, president of the Grocery Manufacturers of America (GMA), predicted the battle will break into the open soon. Housewives grocery strikes in Denver, Pontiac and other cities are a symptom, he suggested.

In essence, he claimed that strong controls over the food industry will be sought under the guise of cheap food. But such a turn, he held, would not reduce grocery bills.

Koch addressed a major part of some 300 persons attending the 33rd annual convention of the Michigan Canners and Freezers association in St. Joseph. The two-day meeting ended last night.

John McCool of Traverse City was advanced to the presidency of the state processors organization during the business session yesterday. J. P. Arnold, Dwan, head of the Musselman-Dwan division of Pet Milk Co. at St. Joseph, was elected vice president, which puts him in line for the presidency another year under association custom of advancing its officers.

Re-elected as members of the board of directors were A. Edward Brown, president of Michigan Fruit Canners, Benton Harbor; James Brian, Smelter Orchard Co., Frankfort, and Edward Burnett, Gerber Products Co., Fremont.

Another major speaker at Friday's session was Ennis Parker, of Griffin, Ga., president of the National Canners association. (An account of his address was carried in Friday's issue of this newspaper.)

BLUEPRINT

GMA President Koch indicated a blueprint for the new form of controls some Washington politicians hope to impose over the food industry is contained in a final report made to President Johnson recently by the National Commission of Food Marketing.

He charged that the commission signed the report even before the reports from vital technical studies and a major report submitted by the National Canners association were made.

Conclusions of the commission report, he said, are in essence that the price of food per unit is the only important thing; that price competition is the only legitimate competition and questions even if food advertising is good economic or social policy; that marketing orders be pushed for purposes of increasing farmers bargaining power.

The report's conclusions are all based on the structural theory of economics, Koch said, meaning essentially government controls over how and in what forms the food industry may be made.

(See back page sec. 1, col. 1)

CUTE KOREAN: Lt. Gov. William Milliken admires the choice of Niles high school in selecting Susan Lee, 17-year-old senior as homecoming queen. Susan was born in the United States of Korean ancestry. She is the daughter of Mr. and Mrs. Han Kan Lee. Her father, a retired lieutenant colonel, is in Viet Nam as a U.S. civilian adviser. Her mother Hai Soon Lee, M.D., is a practicing physician in Niles. Milliken appeared at Niles-Benton Harbor football game Friday as part of campaign swing through Berrien county. (Redman photo)

BUSY BOOSTING OTHERS

He's Not Shouting It, But Milliken Wants Votes, Too

By JIM SHANAHAN
BII City Editor

Sometimes Bill Milliken almost creates the impression he is not a candidate for political office but only an advocate for others.

"In the last week to 10 days, I have sensed a terrific break-through for Sen. (Robert) Griffin," said the Michigan Lieutenant governor. There's a friendly response to plant gates in supposedly anti-Republican sectors and good comments on the Griffin campaign.

Milliken said Griffin has dispelled the belief that the Landrum-Griffin act is anti-labor and is acquiring support from union members.

Milliken worked in Berrien and Van Buren counties Friday promoting the cause of Republicanism. He noted the campaign bandwagons are rolling for George Washington and Lawrence B. Lindsey. They are candidates for secretary of state and attorney general respectively opposing proven ballot box attractions in Democrats James Hare and Frank Kelley.

"Do you think you and the governor have it made?" Milliken was asked.

"We're taking nothing for granted," said George Romney's running mate. "We've never worked harder."

The question "harder for whom?" also might have been asked.

The Romney-Griffin play appears obvious. The governor is considered a shoe-in to defeat Democrat Zolton Ferency. But Robert Griffin needs all the help he can get against G. Mennen Williams. Romney also would like to have an all-Republican administrative team.

NOT THE HOUSE

He's unlikely to get a GOP Legislature even in Milliken's appraisal. The lieutenant governor said he's detected a Republican groundswell and "the Senate can be taken." He expressed no such optimism for the House.

The Michigan election will draw national attention as a measure of Romney's popularity. He needs a big victory to enhance his standing as one of the top contenders for the 1969 presidential nomination. And the more Republican candidates he pulls in with him this year in Michigan, the better.

Romney was an impressive victor in 1964 despite the Goldwater yoke and Democratic tide. Milliken made no prediction on the governor increasing the 350,000-vote margin by which he defeated Neil Staehle two years ago. However, Milliken noted there would be fewer votes cast because of a non-presidential year.

Milliken rises or falls with Romney because governor and lieutenant governor are both in the same square on the ballot.

Milliken didn't veer into national politics during an interview Friday but cited various accomplishments in Michigan under Romney.

CITES PROGRESS

The governor has made substantial progress for economy, and efficiency in administration resulting in savings of \$3 million a year, according to Milliken. By implementing the new Constitution some 140 boards have been consolidated into 19 departments.

Milliken conceded the cost of state government is going up because of population increases and rises in the price of doing business. About \$70 to \$80 million more is needed each year just to stay even.

Although Michigan has a surplus, fiscal reform is still needed to provide for rainy days and remove inequities, Milliken said. Romney initiated a fiscal reform program on a coalition basis only to be rejected by legislative leaders. Milliken said a flat rate personal and corporate income tax with limits established should be a part of tax reform. Also needed are sales tax relief on food, easing of property taxes and elimination of the business activities tax.

The personable Traverse City merchant came to the Twin Cities yesterday afternoon from South Haven. He appeared Friday evening in Niles at a football game and a Suds Social at Laughlin Place stables on the Niles-Buchanan road.

House Burglarized

John Ritchie, Territorial and Blue Creek roads, Benton township, reported to township police yesterday that his house had been burglarized. Taken were some shotgun shells, ice cream and soda pop, Ritchie said.

ST. MATTHEW'S

Plans Nearly Complete For Addition At Lutheran School

Plans are reaching the final stage for a new and much needed addition to St. Matthew's Lutheran school, McAlister avenue, Benton Harbor. It was announced today by William Rauh, school board president and building committee chairman.

Rauh said the building is to be of cement-block construction with brick facing and will conform to the style of the existing structure, which it will adjoin on the Catalpa street, or north side.

It is expected to cost between \$150,000 and \$200,000.

ARCHITECTS
Maurer, Van Ryn, Ogden & Natali of South Bend, Ind., is the architectural firm which

has been working with the committee on plans for the past year.

Covering an area of 6,000 square feet, the proposed addition is to consist of two classrooms, a large multi-purpose room which is to serve also as a cafeteria, an enlarged kitchen, additional toilet facilities, and general storage areas, according to Rauh.

At present the school has no main entrance on McAlister avenue, using instead smaller ones on the south (Harrison avenue) and the north (Catalpa avenue) sides of the school.

McALISTER ENTRANCE
Building plans call for construction of a McAlister main entrance. Since existing offices

are in the area to be converted into the new entrance, an adjoining classroom in the old building will be remodeled into offices for school principal and church secretary and into a faculty work room.

Chairman Rauh said it is hoped to get plans approved and building operations started in time to have the addition ready for occupancy by the beginning of the school term next fall as the present school is vastly overcrowded.

On the building committee with Rauh are Louis Schultz, Dan Plesky, Amil Mashke, Alfred Kelm, Don Mummaw, School Principal Virgil Raasch, Pastor Kermit Biedenbender and Claude Smith.

ST. JOSEPH, MICH., SATURDAY, OCTOBER 22, 1966

ST. JOHN'S, WATERVLIET FIGHT TO 6-6 STANDOFF

By PHIL SMITH

Staff Sports Writer

The game ended in a 6-6 tie, but from the attitude of both teams and their coaches, one would have thought they both had lost.

And in one sense, both Watervliet and St. John's did lose in Friday night's bruising battle at Fistrup Field.

St. John's lost undisputed lead of the Red Arrow conference when Decatur upended Hartford 21-7. Both teams are now 4-1 in the league going into next Friday's showdown at Decatur. The Irish are now 5-0-1 overall.

Watervliet lost a golden chance to gain ground on the league leaders. The Panthers remained in third place with the 4-1-1 mark, the same as their overall record. Both teams had chances to

pull out a victory in the game's closing moments, only to fail.

Watervliet, after being stopped three times in the second half inside the St. John's 25, finally broke the scoring ice

Statistics

with just 3:27 remaining in the game.

With a third and goal on the Irish eight, quarterback Julian Fotre faked to his fullback, then rolled out to his right and

connected with end Jim White-

side in the end zone. Swedish exchange student Clas Lindroth had two chances to boot the extra point. His first was off to the left, but St. John's was offside. Then Irish linebacker Ray Darato broke through to block his second attempt.

Up to this point, St. John's had been held to minus four yards since intermission after missing two scoring opportunities in the first half.

But the Irish suddenly came alive, and despite a 15-yard penalty called against coach Dave Zegunis for coming on the field, they managed to score 94 yards in just 12 minutes for the tying TD.

On the first play, Terry Mandarino connected with end Bill Flood for a 20-yard gain. It

was only the second pass completed by the Irish in the game. Then, on fourth down, halfback Bill Bowie got around left end and sped on to the Panther 23 before being knocked out of bounds.

After Portus Webster was thrown for a two-yard loss, Mandarino found Flood all by

himself behind the Watervliet secondary for a 25-yard touchdown bomb.

Ed Irvin then booted a perfect placement, but St. John's was called for illegal use of the hands. This set the Irish back 15 yards, but Irvin tried again, this time from the 25. The ball sailed in a long, low arc toward

the crossbar, but went just underneath it. The game was still tied with 1:58 left.

St. John's held Watervliet for three downs after the kickoff, forcing them to punt with just 36 seconds showing. The Irish took over on their 26 with 22 seconds left, but they had used up their last time out. The final buzzer sounded as Mandarino tossed a long desperation pass which Webster could not quite reach.

"This is the first tie game I've ever coached in, and I'm not quite sure how to react," said Watervliet coach Jerry Barchett. "But I know I'm sure not happy about it."

"Just one mistake spoiled it for us," Barchett continued. "Our secondary never should have let Flood get by for that touchdown pass. But I guess

you have to expect these things to happen once in a while with young boys."

Zegunis praised his team for being able to come back after falling behind, but was bitterly disappointed with St. John's overall offensive performance.

"I can't understand what's wrong with our offense," he stated. "We practiced our new power plays over and over during the week to make sure everybody knew his assignment. But the boys kept coming back and saying they were mixed up about whom they were supposed to block."

Inability to complete passes in key situations had stymied the Irish in the first half. The Irish lost the ball on downs at the Watervliet eight and again at the 10 when passes failed after the Panthers stopped the

Irish power plays. Watervliet roared to the Irish 15 after intercepting a pass just before intermission, but was thrown for two losses as time ran out.

Punter John McDonald, who had averaged 40 yards on two first half boots to put Watervliet in the hole, got off two bad punts in succession against the wind in the third period to give the Panthers scoring opportunities at the Irish 24 and 25.

But St. John's, led by line-backers Ray Darato and Jim Phelan, held at the 15 and then took over again on a pass interception by Mandarino. Mandarino stopped another Watervliet march at the 23 when he tackled Bob Koshar just short of the first down. Watervliet's offense was led (See IRISH, Page 15)

THE WORLD OF
Sports

Leads Niles To 14-7 Win

Kline Clips Tigers

By JIM DELAND

Sports Editor

NILES—Benton Harbor's Tigers may be hung up on losing, but they almost kicked the habit here Friday night. Almost.

But not quite. Niles quarterback Tim Klein kept the monkey on the Tigers' backs as he spearheaded the Vikings to a 14-7 victory that was Benton Harbor's sixth straight dose of defeat this

season. Klein drove the Vikings 99 yards and 85 inches for their first touchdown in the second quarter and marched them 81 yards to wrap it up with only 1:43 remaining in the game.

and he did most of it himself. The versatile 160-pound senior lived up to his reputation and then some as he passed for 144 yards and two touchdowns and ran for 92 yards more to

account for 236 of the 344 yards his team gained during the game.

"He's better than I thought he was," Benton Harbor coach Al Ratcliff said in admiration. "They deserved that 99-yard touchdown. Any time a team can go the whole length of the field like that, they've earned it."

Benton Harbor also earned a touchdown, zooming 90 yards in

slightly more than a minute after Niles' second TD, with fullback Leroy (The Horse) Hull diving over from a yard out with 31 seconds left in the game.

With a little better luck, they might have had a victory, too. "This wasn't like the first five," Ratcliff said. "We don't have to hang our heads. . . We played well enough to win."

As it was, the Tigers missed by inches. The biggest inch was the one the Tigers didn't get early in

Statistics

the second quarter after Butch Hynd had picked off one of Klein's passes at the Niles 35. With fourth down at the four-yard line, Hynd took a pitchout and fought his way to the goal. . . Almost.

When the players unpled the ball was spotted an inch from the end zone, and the Vikings promptly drove the length of the field to score.

Klein accounted for 72 of the yards running and passing and fired an eight-yard strike to end Terry Toney on the payoff play midway through the period. Terry Bevington kicked the first of two extra points to put Niles ahead 7-0.

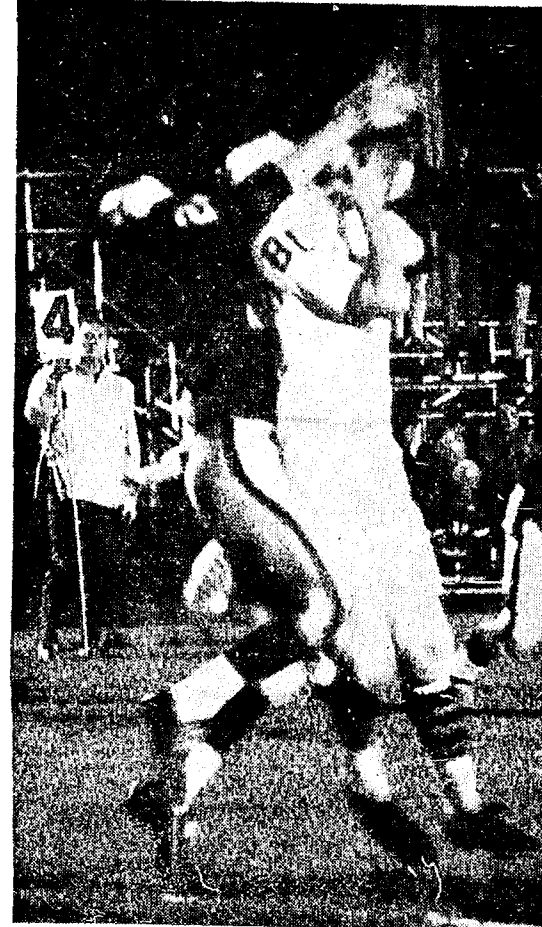

Niles marched 73 yards for a first down at the Benton Harbor seven late in the third quarter, but the Tigers dug in and took possession at the six after Klein had thrown wild on a fourth-down pass intended for Toney.

Eight minutes later the Tigers were at the Viking 19 and quarterback Bob Van Antwerp stepped back and lofted a pass into the wind. Split end Rich Vintainer hauled it in with one foot in the corner of the end zone, but his other foot came down outside the playing area and the pass was ruled incomplete.

Again the Vikings rolled the length of the field to score, this time with the help of a 15-yard roughing-the-kicker penalty that gave them the ball back after they had been forced to punt. It was perhaps the turning point of the game, but was accepted by Ratcliff with no misgivings.

"I don't mind a penalty like that once in a while," he said. "It was just a matter of inches, and at least it shows you the kids have the right idea."

Following the penalty, Klein moved the Vikings to the B11 27. (See TIGERS, Page 14)

FATAL PLAY FOR BEARS: Penn end Gregg Minnegar (80) leaps in front of St. Joseph defender to pull in pass from quarterback Phil Singleton just across the Bears' goal line. The 12-yard pass on fourth down provided the only touchdown of the night in Penn's 7-0 victory. (Staff photo)

Bears Fall Again, 7-0

4th Straight Loss For St. Joseph

By JAKE SHUBINSKI

Staff Sports Writer

MISHAWAKA, Ind. — St. Joseph's losing streak and shut-out string have reached somewhat alarming proportions.

You'll have to go back into the record books to 1958 before you can find a St. Joseph team that has a longer losing streak than the current team.

The Bears of '58 lost six in a row. Friday night, the '66 bears dropped their fourth straight, 7-0, to the Penn Kingsmen, and suffered their third straight whitewashing. . . and heaven only knows the last time this happened.

But the Bears last night "didn't beat themselves with bone-head plays," said coach Willis Koontz. "We hit well and it was the best we've looked since the Harrison game. . . we had enough chances to win but we just couldn't capitalize on our breaks."

The Bears had possession of the ball seven times and only once did they fail to cross into Penn territory.

After Penn was unable to

move the ball on their first series of downs, the Bears put the ball in play on their own 47 and moved to the Penn seven in seven plays.

The eighth play looked like a handoff from Mike Oit to back Jim Hays who hit into the middle of the line. But somewhere along the line, the

Statistics

Ball Lost On Fumbles	1

ball got separated from either Oit or Hays and ended up underneath Ron Burris' 232-pound frame at the seven.

Before the Bears regained possession, the Kingsmen had marched 93 yards in 12 plays for the game's only touchdown. The six-pointer came on a fourth down pass from quarterback Phil Singleton to end Gregg Minnegar that covered 12 yards and was caught in the end zone. Gary Randolph booted the extra point.

Greg Forbes took the ensuing kickoff at his 16 and returned it to the 41 from which point the Bears moved to the Penn 23. The Bears had a first and 10 at the Penn 24 but a delay of game penalty cost them five yards and stalled the drive.

Penn took over and made it to the St. Joseph 10 before the first half ended.

During the first 24 minutes of the game, the Bears ran only 16 plays from scrimmage while the Kingsmen ran 33.

St. Joseph's second half drives were stopped at the Penn 38, 39, middlefield and the Penn 29 as the defensive unit, led by Dick Cox, gave the Bears three more golden scoring chances.

Cox recovered a Penn fumble at his own 40 late in the period after which the Bears moved to the Penn 39 where they were stopped on downs.

On the last play of the quarter and Penn's first play after gaining possession, safety man Dick Lindfield intercepted a Singleton pass at the Penn 25 and returned it to the Penn 38.

Jim Hays picked up 10 to the 28 but the Bears were able to gain only eight yards in their next four tries and Penn took over and moved to St. Joseph's 47 before it was forced to punt.

The Bears went on the offense at their own 24 and moved out to the 50, thanks to a two-yard fourth down gain by Hays.

Two passes by Oit were incomplete and his third effort fell into the hands of Penn's Doug Ward with 2:29 left in the game.

With just 55 seconds left, Penn had moved for a first down to its own 36 and it looked like the Kingsmen would run out the clock.

But Cox came out of a pile-up in the middle of the line with the ball and the Bears were still alive at the Penn 31. Oit hit John Richter at the five but the ball popped out of his arms and fell incomplete.

Even on this play the Bears

(See RAMS, Page 14)

(See BEARS, Page 14)

Decatur Tops Hartford, Ties For League Lead

HARTFORD — Decatur, which is enjoying its best season since 1959, took over a share of first place in the Red Arrow conference Friday with a 21-7 victory over Hartford.

Coach Don Raterink's Raiders have now won four straight to match the squad's previous longest winning streak in '69 when Decatur finished with a 5-2-1 record.

Decatur ruined Hartford's homecoming by scoring all of its touchdowns before the Indians could get on the scoreboard.

Statistics

Decatur	Hartford

In the second period, quarterback Terry Newell ended a 60-yard sustained drive by going one yard on a sneak. Bob Pike ran for the extra point.

The Raiders then made it 14-0 in the third frame when John Carlson picked up a fumble by Hartford halfback Bob Scalletta

and ran 10 yards to the end zone. Pike again added the PAT.

Decatur wrapped up its scoring in the final period as Pike busted through the line for a 52-yard touchdown romp. This time it was Carlson who ran for the extra point.

Hartford's touchdown came near the end of the game on a two-yard sneak by quarterback Bill Barlow. Ron Vliek kicked the PAT.

"They ran all over us," said losing coach Ed Gustafson. "Pike hurt us quite a bit. He's a real good ball player."

Pike finished with 84 yards to lead all rushers. Teammates Bob Dillenbeck and Carlson added 56 and 55 yards respectively. Top Hartford runners were Dave Brown, Gary Peters and Scalletta.

Winning coach Raterink said it was his squad's best game of the year. The Raiders are now

4-0-1 in the Red Arrow and 4-1-1 overall, while Hartford stands at 2-3 in the conference and 3-3 for the year.

The score by quarters:

Decatur 0 7 7 7-21

Hartford 0 0 0 7-7

Touchdowns: Decatur — Newell, Carlson, Pike, Hartford — Barlow. PATs: Decatur — Pike (2), Carlson, Hartford — Vliek.

Montreal Player Sold

MONTREAL (AP)—Left Winger Tom McCarthy was sold Thursday by the Montreal Canadiens of the National Hockey League to the Cleveland Barons of the American Hockey League.

DOWAGIAC —Dowagiac's Chiefs, led by hard-running tailback Jim Boyd, came to life in the second half here Friday night to hand visiting Kalamazoo Hackett a 26-7 setback in a nonconference game.

Despite a brilliant 97-yard kickoff return by Sam Macon in the first quarter, coach Jack McAvoy's Chiefs found themselves trailing at intermission by a 7-6 margin at halftime.

But the second half was a different story. Boyd, who ended up with 182 yards on 23 carries for the evening, ran for two touchdowns and caught a pass for a third as the Chiefs

carried away their fifth victory against one loss. Hackett is now 0-5-0.

Hackett started the scoring, carried 20 yards for a TD.

Statistics

over from three yards out in the with fullback Wally Biber going

first period. John Towle kicked the extra point.

Then Macon turned what could have been a disaster into the longest scoring play this season by an area player. There was a mixup as to who was to receive the kickoff, and Macon finally picked the ball up on the three, found an opening, and went all the way.

But after that, Dowagiac couldn't muster a scoring threat in the first half.

Boyd put the Chiefs ahead to stay in the third period when he drove four yards off tackle. He followed this with a 38-yard TD run, then ended the scoring in

the fourth period by taking a 23-yard pass from quarterback Ron Mathews and stepping into the end zone. Gary Castle kicked two extra points.

The touchdown pass was the only aerial Dowagiac completed in the game.

Dowagiac returns to Big Six conference action next week when it hosts Portage Northern.

Score by quarters:

Dowagiac 6 0 13 7-26

Hackett 7 0 0 0-7

Touchdowns: Dowagiac—Rovd 3, Macon. Hackett—Biber. PAT: Dowagiac—Castle 2, Hackett—Towle.

CITY OF ST. JOSEPH ST. JOSEPH, MICHIGAN AUDIT REPORT AUGUST 25, 1966

To the Commission
City of St. Joseph, Michigan

We have examined the statement of financial condition of the City of St. Joseph, including the Water Supply System as of June 30, 1966, and the related statement of receipts and disbursements for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying statements present fairly the assets and liabilities of the City of St. Joseph, including the Water Supply System, at June 30, 1966, arising from cash transactions, the revenues collected and expenses disbursed by it, and changes in municipal equity during the year then ended, on a basis consistent with that of the preceding year.

ICerman, Johnson & Hoffman

COMMENTS

STATEMENT OF FINANCIAL CONDITION
Cash and investments in the General Fund amounted to \$211,095 at June 30, 1966. Of this total \$100,018 was reserved for debt service and paying projects. The balance, \$111,077, was available as unappropriated cash surplus for general City purposes. Working capital requirements indicate a need for a balance of at least \$75,000 at the end of each fiscal year.

Delinquent taxes uncollected amounted to \$32,700 as compared to \$39,650 at the close of the preceding year.

All the bond maturities were retired as the installments became due. Bond maturities by years and future interest requirements are presented in Schedules A-5. Bonds outstanding at June 30, 1966, include \$240,000 general obligation, \$161,000 street special assessment and \$1,130,000 water improvement. Bonds of all types retired during the year under review amounted to \$129,000.

The Employees' Retirement System has cash and investments totaling \$1,136,439 allocated as follows: \$261,856 in employee savings, \$412,991 in the retirement reserve and \$461,592 in the pension reserve.

RECEIPTS AND DISBURSEMENTS
Receipts in the General Fund totaled \$1,784,059 as compared to disbursements of \$1,796,553. Disbursements charged against budget appropriations total \$38,128 less than the amount appropriated. Collection of budget items exceeded the estimated receipts by \$21,694.

A comparison of General Fund operating receipts and disbursements for the current and preceding two years is presented. Receipts and disbursements for the Employees' Retirement System are analyzed in Exhibit C.

WATER SUPPLY SYSTEM
The net income earned by the Water Supply System amounted to \$48,204 as compared to \$51,273 for the preceding year. The net income was sufficient to provide for the debt service requirements of both the water revenue and water general obligation bond issues. The remaining water bonds outstanding amounted to \$1,130,000 at June 30, 1966, after retiring \$35,000 on schedule during the year.

All reserves required by the revenue bond ordinance were established in full and \$581,422 was available for plant expansion in the improvement account after a current expenditure of \$60,000 for water main extension for industrial use.

Statements pertaining to the Urban Renewal project and the Public Housing Commission are presented in Exhibits G and H respectively.

Water Filtration Plant 2,958.30
Housing Code Enforcement

Mr. Tobias, seconded by Mr. Houseal, moved approval of the above report and that the Director of Finance be authorized to issue vouchers in payment of the several amounts. Roll call resulted as follows: Yeas: Commissioners Ehrenberg, Houseal, Kasischke, Rill and Tobias. Nays: None. Absent: None. Motion declared carried.

The City Manager reported that he had received a request from Joseph G. Dwan and Arlene B. Dwan, his wife, requesting a further extension of request from Planning Commission to defer any consideration of the application of David P. Fister, Fister Realty Company, for Beulah Farquhar and Mr. and Mrs. Edmund DeGraw, to rezone the property known as 102 North Pier, St. Joseph, Michigan, and 104 North Pier, St. Joseph, Michigan, from "A-2" residential to "C-3" multiple dwelling district, for an additional period of Ninety days in order to preclude automatic approval after sixty days as set forth in the Zoning Ordinance of the City of St. Joseph. A previous ninety-day extension had been granted by the City Commission at its regular meeting held July 11, 1966.

Mr. Tobias, seconded by Mr.

Houseal, moved that the request of the City Manager that the City Commission take no action on the above application until a report has been received from the Planning Commission, be postponed for an additional period of ninety days.

Roll call resulted as follows: Yeas: Commissioners Ehrenberg, Houseal, Kasischke, Rill and Tobias. Nays: None. Absent: None. Motion declared carried.

The City Manager presented the following bids on the purchase of two police cars:

No. 12, \$1,000.00 by Twin Cities Chevrolet, Inc., and \$1,139.00 by Roti Motors;

No. 13, \$1,100.00 by Twin Cities Chevrolet, Inc., and \$1,239.00 by Roti Motors and recommended the low bids be accepted.

Mr. Tobias, seconded by Mr. Kasischke, moved to accept the low bids on both cars by Twin Cities Chevrolet, Inc. Roll call resulted as follows: Yeas: Commissioners Ehrenberg, Houseal, Kasischke, Rill and Tobias. Nays: None. Absent: None. Motion declared carried.

The City Manager presented a report of the City Planning Commission dated October 3, 1966, recommending the approval of a proposed three-story office building with approximately 40 parking spaces to be built on the South 1/2 of Block 6, Urban Renewal Area, bounded by Church to Court Streets and Port to Ship Streets, as prepared by Attorney Patrick Kinney.

After discussion, Mr. Tobias, seconded by Mr. Ehrenberg, moved that the proposed development be and hereby is approved by this Commission.

Roll call resulted as follows: Yeas: Commissioners Ehrenberg, Houseal, Kasischke, Rill and Tobias. Nays: None. Absent: None. Motion declared carried.

The City Manager presented a letter from Olipra & Associates Realty Service, signed by Andrew S. Olipra, together with a good faith check in the sum of \$1220.00, representing a deposit on Urban Renewal Lot 2/3, bounded by the St. Joseph River, State Street, and Water Street, upon which it proposes to build a luxury apartment house project. This offer is contingent upon the City's acceptance of a prior offer for Block 4, and is contingent on the development of both parcels for single management and control.

After discussion, Mr. Kasischke, seconded by Mr. Houseal, moved that the City Manager acknowledge receipt of the foregoing letter and check and advise Mr. Olipra that action will be taken on his request at an early date.

Roll call resulted as follows: Yeas: Commissioners Ehrenberg, Houseal, Kasischke, Rill and Tobias. Nays: None. Absent: None. Motion declared carried.

Mr. Ehrenberg, moved to adjourn until Monday, October 17th, 1966.

S/ CHARLES J. RHODES, Clerk
S/ WM. A. RILL, Mayor

RELETTING GLEASON & WILSON DRAIN
NOTICE OF LETTING OF DRAIN CONTRACT AND REVIEW OF APPORTIONMENTS

NOTICE IS HEREBY GIVEN, That I, Hazen D. Harker, County Drain Commissioner of the County of Berrien, State of Michigan, will, on the 26th day of October A.D. 1966, at the Drain Commissioner's Office, Courthouse, in the City of St. Joseph, in said County of Berrien at 10:00 o'clock in the forenoon of that day receive sealed bids until 10:00 o'clock in the forenoon of that day, when bids will be opened and publicly announced for the construction of a certain Drain known and designated as "Gleason & Wilson Drain," located and established in the Township of Chikaming in said County.

Said drain is divided into two Sections as follows:

SECTION 1. 2900 feet to clean and repair.

SECTION 2. Install about 710 feet of 24 inch corrugated metal culvert pipe. Install or build three, four foot catch basins.

In the construction of said Drain the following quantities and character of tile or pipe will be required and contracts let for same:

710 feet of 24 inch, 15 gauge corrugated metal culvert pipe and connecting bands. Install 3, 4 foot catch basins.

The Commissioner shall first let the section at the outlet of the Drain and shall let each remaining section in its order upstream; Provided, that the Commissioner may let the Drain in sections or as a whole whichever appears to him most practical. Said job will be let by sections. The section at the outlet of said Drain will be let first, and the remaining sections in that order upstream, in accordance with the diagram now on file with the other papers pertaining to said Drain, in the office of the County Drain Commissioner of the County of Berrien to which reference may be had by all parties interested, and bids will be made and received accordingly.

Contracts will be made with the lowest responsible bidder giving adequate security for the performance of the work, in the sum then and there to be fixed by me, reserving to myself the right to reject any and all bids, and to adjourn such letting to such time and place as I shall

publicly announce.

The date for the completion of such contract, and the terms of payment therefor, shall and will be announced at the time and place of letting. Any person desiring to bid on the above mentioned work will be required to deposit with the Drainage Board a certified check or cash to the amount of One Hundred Dollars as a guarantee that he will enter into contract and furnish the required bond as prescribed by law. The checks of all unsuccessful bidders will be returned after contracts are awarded. The payments for the above mentioned work will be made as follows:

1/3 payable April 15, 1968
1/3 payable April 15, 1969
1/3 payable April 15, 1970

NOTICE IS FURTHER HEREBY GIVEN, that on Thursday, the 3rd day of November, 1966 at the Drain Commissioner's Office, Courthouse, City of St. Joseph, in the Township of St. Joseph, County of Berrien, or at such other time and place thereafter, to which I, the County Drain Commissioner aforesaid, may adjourn the same, the apportionment for benefits and the lands comprised within the "Gleason & Wilson Drain Special Assessment District," will be subject to review for one day, from nine o'clock in the
